Our Story

With over three decades of expertise in the CAD industry, our founding team, pioneers of PowerCAD Draft, one of the earliest CAD solutions in the early 1990s launched ACTCAD in 2014 with a singular mission:
To make enterprise-grade CAD software accessible to everyone.

Initially empowering the passionate engineers and designers, ACTCAD has grown to be trusted by Fortune 500 companies and thousands of businesses across 100+ countries. Our journey is built on innovation, experience, and a commitment to empower creators while keeping our solutions within everyone's reach.
